Food-grade roller covers that cut sanitation time

Easy Clean covers are heat shrink sleeves made from food-grade FEP. Product can't stick to them, so regular and allergen line cleans run about 20% faster. Your maintenance techs install them with a hot air gun.

Conveyor rollers on a food line with Easy Clean covers.

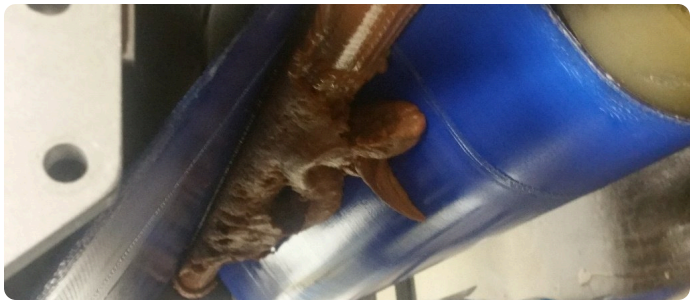

> **One food plant:** line cleans 450 → 360 min · downtime 66 → 44 min/day · belts and bearings $23,300 → $13,300/month

Specs

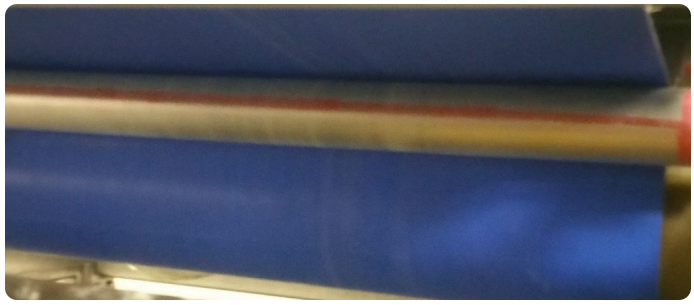

Material	Food-grade FEP, FDA compliant for food contact
Thickness	0.020" or 0.060"
Install	Slide on, shrink with a hot air gun
Cleaning	By hand, normal sanitation chemicals

Benefits

- About 20% faster line cleans
- No heavy scraping
- Fewer people on sanitation
- Less belt tracking and replacement
- Easy to replace

Before: bare roller after 16 hours.

After: Easy Clean cover after 16 hours.
